## Profile

---

- Graduate in Computer Applications with hands-on experience in full stack development using Python (Django) and Laravel. Skilled in building responsive web applications, integrating databases, and working with real-time problem-solving through guided project work and internships. Currently enhancing backend and frontend capabilities through practical training and collaborative development.

## Skills

---

**Technical Skill** — Python | HTML | CSS | Java | Php | Laravel Framework | Django Framework | Flutter | Excel | Graphic Designing

## Professional Experience

---

**Python Developer Intern** 06/2025 – Present | Calicut  
*Luminar Technolab*

- Currently undergoing intensive training in core Python programming as part of a full stack development internship.
- The program includes upcoming modules on SQL, Django, version control (Git), and project deployment.
- Gaining hands-on experience through exercises, mentor-led sessions, and foundational backend/frontend concepts.

**Laravel Full Stack Trainee** 04/2025 – 05/2025 | Manjeri  
*Nexbex Solutions*

- Built dynamic web apps using Laravel, PHP, MySQL, HTML, CSS, and JavaScript.
- Applied MVC principles for user authentication and dashboard modules.
- Optimized database queries, reducing backend latency by 25%.
- Collaborated in a team of 5, participating in daily stand-ups and client demo sessions.

## Projects

---

**Farmfield** 10/2024 – 03/2025  
*Smart Farming App*

- Built a full-stack smart farming system (Admin, Expert, Farmer modules) using Django and Flutter.
- Enhanced agricultural decision-making with machine learning features for crop planning and disease alerts, improving outcomes by 10–15%.
- Added fertilizer recommendation and wildlife alert systems to support decision-making.

## Education

---

**Bachelor of Computer Application** 2022 – 2025  
*University of Calicut*

## Certificates

---

**Learn HTML** — Beginner-level HTML course covering structure and tags.
