Profile

- Graduate in Computer Applications with hands-on experience in full stack development using Python (Django) and Laravel. Skilled in building responsive web applications, integrating databases, and working with real-time problem-solving through guided project work and internships. Currently enhancing backend and frontend capabilities through practical training and collaborative development.

Skills

Technical Skill — Python | HTML | CSS | Java | Php | Laravel Framework | Django Framework | Flutter | Excel | Graphic Designing | SQL | Bootstrap

Professional Experience

Python Developer Intern   06/2025 – Present | Calicut
Luminar Technolab

- Completed training in HTML, CSS, SQL, Bootstrap, and Git, and currently undergoing Django training as part of a full-stack development internship.
- Upcoming modules include React and advanced full-stack concepts, along with project deployment.
- Gaining hands-on experience through projects, exercises, and mentor-led sessions, building strong backend and frontend skills.

Laravel Full Stack Trainee   04/2025 – 05/2025 | Manjeri
Nexbex Solutions

- Built dynamic web apps using Laravel, PHP, MySQL, HTML, CSS, and JavaScript.
- Applied MVC principles for user authentication and dashboard modules.
- Optimized database queries, reducing backend latency by 25%.
- Collaborated in a team of 5, participating in daily stand-ups and client demo sessions.

Projects

Farmfield   10/2024 – 03/2025
Smart Farming App

- Built a full-stack smart farming system (Admin, Expert, Farmer modules) using Django and Flutter.
- Enhanced agricultural decision-making with machine learning features for crop planning and disease alerts, improving outcomes by 10–15%
- Added fertilizer recommendation and wildlife alert systems to support decision-making.

Education

Bachelor of Computer Application   2022 – 2025
University of Calicut
